ABOUT MYSELF

Data Engineer with a background in large-scale data analysis and modeling, and experience delivering solutions in the public healthcare sector. Skilled in building end-to-end data pipelines, developing dashboards and reporting systems, and designing Data Lakes, with additional exposure to AI applications for optimizing clinical workflows.

Graduated in Mathematics with a focus on Statistics and Operations Research, I bring strong analytical and problem-solving capabilities. I am currently looking to transition into data-driven environments—particularly in advanced analytics, risk, or finance—where I can contribute to high-impact projects and further develop my expertise.

WORK EXPERIENCE

ÁlamoConsulting

Data Engineer

15/06/2025 - Current

- Developed data analytics solutions within the public healthcare sector, handling large-scale datasets.
- Leveraged the Stratio Generative AI Data Fabric platform for data governance, integration, analysis, and visualization.
- Designed and built data pipelines using workflows, including data extraction, transformation, and modeling (ETL processes).
- Collaborated on AI-driven projects to improve antibiotic prescription processes, optimizing clinical workflows.
- Contributed to the design and implementation of a Data Lake, developing specific use cases.
- Worked closely with healthcare stakeholders, translating business requirements into practical and efficient analytical solutions.
- Developed dashboards and reports to support data-driven decision-making.

EDUCATION & TRAINING

05/10/2020 - 21/07/2025

Bachelor's Degree in Mathematics Universidad de La Laguna

During my studies, I developed advanced programming skills, working with algorithms and data structures to optimize computations. I also gained experience in statistical inference and multivariate analysis, applying regression, classification, and dimensionality reduction techniques. Additionally, I acquired knowledge in combinatorial programming and operations research to solve optimization problems and support strategic decision-making.

Field(s) of study: Statistics and Operations Research

21/03/2024 - 10/06/2024

Online Course in Introduction to Corporate Financial Analysis Fundación Fyde – CajaCanarias Business School (Online)

Corporate Financial Management Course, focused on financial structure, balancing investments and financing, profitability and solvency analysis, and working capital management to optimize financial planning.

15/06/2025 - 23/06/2025

Stratio Generative AI Data Fabric Basics Certification StratioBD

SKILLS

SQL | Power BI | Excel | Python | Stratio | SPSS

INTERPERSONAL AND COMMUNICATION SKILLS

Analytical Skills

Ability to interpret data, identify patterns, and make informed decisions.

Time Management and Organizational Skills

Ability to prioritize tasks and manage multiple projects efficiently.

Adaptability and Continuous Learning

Ability to acquire new knowledge and adapt to technological changes.

LANGUAGE SKILLS

OTHER LANGUAGE(S):

English

Listening B2

Reading B2

Writing B2

Spoken production B2

Spoken interaction B2

HOBBIES AND INTERESTS

● Padel, Table Official – Canary Islands Basketball Federation and traveling.
